

## Perlenkinder News June 2025 Green Guardians

Every Saturday, the children of our Perlenkinder House get involved in a community initiative. Equipped with brooms and bags, they roam the streets to remove garbage from public areas and the surrounding area. Accompanied by visitors and locals, they work hard to clear Buhoma and the surrounding region of garbage. They take great pleasure in this meaningful activity, which not only benefits their community, but also makes a valuable contribution to the protection and preservation of our environment.
