Donation to BuhomART with Passion

January 2026

Justus, an educated artist, is committed to helping children in the region who need support and prospects through his organization BuhomART with Passion. He accompanies them in their leisure activities, promotes their creative and personal skills, and helps them to find their way to a future career. His newly designed house offers children the opportunity to learn painting, pottery, and sewing, while fitness equipment supports sporting activities.

Donation to BuhomART with Passion

January 2026

At the same time, he attaches great importance to conscious and sustainable treatment of the environment, which he actively teaches the children, and every week he collects plastic waste in Buhoma with them for the “Green Guardians.”

He works closely with Akansasira – he takes special care of the Perlenkinder children. After school or during the holidays, many children from the Perlenkinderhaus, which is only about 200 meters away, go over to Justus to spend their free time there.

At Christmas, we supported his project with a donation, because the cooperation between him and Akansasira also helps the Perlenkinder in their daily lives and perhaps later in their career choices.
