

Perlenkinder News Holidays!!! May 2026

The holiday season is always something very special for our Perlenkinder. Over the past few weeks, the children have been able to leave their daily routines behind, recharge their batteries, and enjoy many wonderful moments. They spent their free time in all sorts of ways, finding room for relaxation, creativity, physical activity, and shared experiences.

Many children used the holidays to pursue their interests and try new things. Some enthusiastically immersed themselves in exciting books from the small “house library,” wrote short stories, or creatively recorded their thoughts and experiences. Others discovered their creative side through painting and crafts, joyfully creating colorful works of art. There was also plenty of time for physical activity and play: while playing soccer or running around outdoors, the children were able to burn off their energy and create many wonderful memories.
